Graphic Design for Veteran Counseling Centers (Vet Centers)

Project Title	Graphic Design for Veteran Counseling Centers (Vet Centers)
Project Summary	Designing posters, web banners, infographics and other visual communications to use for digital and print media.
Country	United States

Project Description

This project will support counseling centers for active duty service members, Veterans and their families. VA has 300 Vet Centers across the country that it provides trauma counseling to. With a new communications office and a need to build awareness for the services Vet Centers provide, the Communications Officer is looking for talented students who are proficient in graphic design using professional design software such as Adobe Photoshop, InDesign, Illustrator, etc. Skills in photography are an added benefit, as there may be potential to photograph Veterans, employees, and events that the Vet Center is participating in.

Required Skills or Interests

Skill(s)
Data visualization
Graphic design
Infographic design

Additional Information

We're looking for someone to help the Communications team, with the possibility of visiting a Vet Center or two to get a better understanding for the organization (if desired). For more information on our program, visit: https://www.vetcenter.va.gov/ or a recent news story about the impact our organization is having on Veterans, active duty service members and families here: https://www.today.com/video/inside-the-monumental-program-helping-veterans-readjust-to-civilian-life-1367526467959 .

Language Requirements

None
